

WhiteEagle Woman and her guides are honoured to offer a 2 year Journey of Wisdom and Inner Leadership beginning June 2017

The Art of Dreaming

While sleeping do you sometimes sense that there are lot of amazing things happening inside of you? In older cultures it was understood that if you wanted to learn to command your waking life, you must learn to command your sleeping dream. Learning to navigate your dreams is some of the most important work an awakening human can engage in. It is an art mostly forgotten in our busy world. In the dream world lives an untapped potential to awaken the self to the deepest governance, knowledge and harmony available to a human.

The dreamtime we have during our sleep is a most fruitful source of information, which can help and guide us in our development as humans and strengthen our ability to participate in the course of the World.

The Art of Dreaming training is open to anyone who is curious about what power may lie in the sleeping dream. It is for anyone who may want to begin to use dreams to learn and grow from. It is a 2-year ceremonial journey of self-actualization, healing and personal transformation .

During the training you will be introduced to more than 30 Medicine Wheels and tools, which are symbolic maps of consciousness, power, knowledge and practices with which you will be able to challenge and tracks beliefs, individual and collective and thereby put yourself in the position of creating a life that is more in harmony with what your Spirit is calling for.

There will be learning, ceremonial processes, and joyful meeting of like-minded people out on the Mother Earth. We hope you will join us

"One of the most important things you can do to change the course of history on our planet is to heal yourself of limiting and diminishing thoughts about yourself. Create a vibrant and healthy relationship with yourself. It will change everything in your world and mine."
