

## *“The Art of Dreaming - awaken the Dreamer in you”, February 24<sup>th</sup> to 26<sup>th</sup> 2017*

When sleeping do you sometimes sense that there are lot of amazing things happening inside of you? In older cultures it was understood that if you wanted to learn to command your waking life, you must learn to command your sleeping dream. Learning to navigate your night dreams is some of the most important work an awakening human can give themselves to. It is an art mostly forgotten in our busy world. In the dream world lives an untapped potential to awaken the self to the deepest governance, knowledge and harmony available to a human.

We offer a weekend introduction ceremony in which we will introduce *the art of dreaming*. This ceremony is open to anyone who is curious about what power may lie in the sleeping dream. It is for anyone who may want to begin to use dreams to learn from and to grow from. It is also an introduction ceremony to a longer 2-year ceremonial journey of self-actualization, healing and personal transformation that we call *The Art of Dreaming*.

We invite you to our weekend journey. It happens in the Kiva Winter Moons, which is the time on the Mother Earth for the most vibrant dreams and most important messages to come through to us. There will be learning, ceremonial processes, and the joyful meeting of like-minded people out on the Mother Earth. We hope you will join us.

With deep respect for the yearning to Dream and Awaken
